TIER-1 INDUSTRIAL SURFACE FINISHING & CUSTOM MOULDING PARTNER

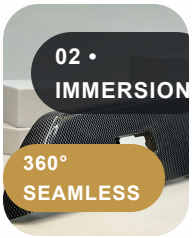

PROTOTYPING TO HIGH-VOLUME MASS PRODUCTION

Liquid Spray Painting

High-volume automated & manual spray lines inside dust-free positive pressure booths. 2K Polyurethane, metallic pearl, piano gloss & soft-touch rubber.

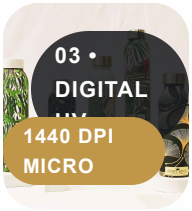

- ✓ Dust-Free Climate Booths

3D Hydrograp Dipping

Water transfer immersion printing for complex compound curves. High-definition carbon fiber, natural exotic woodgrain, granite, marble & custom camo textures.

- ✓ Seamless Curved Wrapping

Flatbed UV Digital Printing

Direct-to-substrate digital printing with instant LED UV cold cure. Multi-layer CMYK + White ink, micro-fine vector graphics, and tactile embossed spot gloss relief.

- ✓ Tactile 3D Relief Embossing

Custom Injection Moulding

Thermoplastic tooling & moulding (ABS, PC, Nylon PA6/66, POM, PP). Complete moulding and surface finishing under one single roof to eliminate transit scuffs.

- ✓ Single-Roof Turnkey Flow
